Work Experience

Project Manager/Scrum Master - Criminal Justice Hub (Agile by Nurture)

(Nov 2025 – Present)

Leading cross-functional Agile delivery across the full product lifecycle, maintaining delivery momentum, improving team predictability and ensuring outcomes remained aligned to business priorities.

- Driving consistency in delivery practices by embedding best practice, improving governance and encouraging continuous improvement.
- Coaching Agile teams to improve maturity, predictability and collaboration, supporting stronger planning, delivery confidence and team accountability.
- Managing risks, issues, blockers and dependencies across multiple workstreams, ensuring clear ownership, timely resolution and effective stakeholder communication.
- Built strong relationships with technical and non-technical stakeholders, translating delivery challenges into clear actions and decisions.

Delivery Lead / Scrum Master Frontier Agriculture

(Jun 2025 – Nov 2025)

Led delivery of a SaaS Transport Management System, aligning teams, suppliers and stakeholders around a logistics transformation strategy that improved operational efficiency.

- Established programme governance across RAID, reporting and documentation, strengthening visibility, accountability and senior stakeholder confidence.
- Drove delivery momentum across TMS workstreams, managing risks, dependencies and blockers while ensuring clear ownership and timely escalation.
- Led phased adoption and cut-over planning, coordinating business, technical and supplier teams to support a smooth operational transition.
- Coached Agile teams and improved ways of working, supporting stronger collaboration, planning discipline and delivery predictability.
- Managed dependencies across squads/suppliers and integrations, including coordination of API-related touchpoints impacting downstream services.

Hanover — Central Government Account

Delivery Manager / Scrum Master | Feb 2025 – May 2025

Led delivery for the Platform Security team, **coordinating security initiatives** across a central government AWS platform.

- Directed delivery activity for the decommissioning of Security Hub and implementation of Prowler, strengthening platform security assurance.
- Established **structured security and RCA review processes**, improving team accountability and proactive risk management.
- **Improved incident response** coordination, reducing vulnerability and security threat resolution time by **30%**.
- Facilitated IAM improvements, supporting stronger access control, **compliance and governance** across systems and data.

Senior Delivery Manager – Homes England

(July 2024 – Feb 2025)

Led cross-functional Agile teams to deliver three high-impact digital projects, each with a budget of circa £500,000, achieving a 100% success rate in meeting delivery targets

- **Implemented GDS and Lean practices** to optimise project workflows, resulting in a **15% improvement** in delivery throughput and improved cost efficiency across all projects.
- Coordinated specialists across multiple disciplines, ensuring shared priorities, **clear ownership**, effective communication and **timely delivery**.
- Managed **senior stakeholder engagements** across multiple departments, driving strategic decision-making and actively removing blockers.
- Championed the adoption GDS for tactical solutions, effectively addressing business resistance through stakeholder engagement, clear communication of benefits, and tailored implementation strategies.
- Establishing a **culture of continuous improvement** that enhanced productivity and performance.
- Resolved critical service issues efficiently, achieving a **90% success rate** in addressing high-priority concerns well within agreed SLAs.

Agile Coach – Agile by Nurture

(Oct 2023 – Jun 2024)

Developed of curriculum for Agile training and coaching

- Facilitated planning, prioritisation, progress reviews and continuous improvement sessions to improve delivery confidence and team performance.
- Coached teams on agile maturity across Scrum and Kanban, reinforcing continuous improvement.
- Design and implementation of robust metrics system to **evaluate the effectiveness of training programs**
- Setting up **collaborative initiatives** and community building within client organisations

Delivery Manager - ATOS/Eviden, Telford, UK

(May 2022 – Oct 2023)

Led three cross-functional teams in back-to-back delivery of UCD projects through the GDS phases. **HMRC Making Tax Digital (MTD)** initiative enhanced service quality and availability for millions of citizens.

- Introduced and **championed process improvements** such as Test-Driven Development (TDD) and Scaffolding for Scala, boosting delivery efficiency by 40%.
- Streamlined phases of the GDS framework to enable efficient back-to-back delivery of HMRC services, ensuring alignment with Agile delivery principles and reducing project handover delays.
- **Collaborated with Product Managers** to define delivery priorities, develop roadmaps, and draft quarterly Statements of Work (SOW), ensuring alignment with strategic goals.
- Enhanced **stakeholder engagement** through optimised feedback mechanisms, facilitating effective communication and adjustments.
- Reorganised team structure and adjusted **resource allocations** to align with dynamic project demands, increasing program capacity utilisation

- Designed and facilitated **innovative scrum ceremonies** and workshops, boosting team participation and collaborative problem-solving.

Agile Delivery Manager – CapGemini, Telford, UK

(March 2021 - March 2022)

Managed two large delivery teams on a data integration project, successfully delivering data feeds to downstream systems **for HMRC**.

- **Drove continuous improvement**, contributing to the PMO's enhancement strategy.
- Maintained and **optimised information radiators** for accuracy and utility
- Led Agile ceremonies, RAID reviews, and workshops, fostering an environment of **open communication and decisive action**.
- **Coached** Product Owners in aligning tasks with product roadmaps and team capacity.
- Navigated **stakeholder engagement**, balancing protection and accessibility for the team to promote focus and collaboration.
- Managed **capacity planning and budgeting** within project and operational constraints, supporting effective resource allocation.

Delivery Manager/Scrum Master – NorthHighlands

(Aug 2020 - March 2021)

Led critical COVID-19 projects for the Department of Health & Social Care (Project Moonshot).

- **Guided Product Owners** in backlog prioritisation and management, ensuring project objectives were clear and attainable.
- **Mitigated project risks** through proactive monitoring and escalation, maintaining project integrity and timelines.
- Cultivated a strong network of communication with stakeholders, **reducing feedback loop time** by 50% and enhancing project responsiveness.
- **Led a community of practice** within the Department of Health & Social Care, promoting best practices and continuous learning.
- Influenced **PMO governance** to enhance project tracking, transparency, and oversight, ensuring robust project management.

Scrum Master – Mastek, Corsham, UK

(Jan 2020 - June 2020)

Helped struggling **MoD** project pivot from ongoing delivery challenges transitioning from current way of working resulting in immediate **delivery and focus improvements**.

- Facilitated team **agility assessments**, increasing velocity by 50% across three sprints through iterative enhancements.
- Promoted adherence to Agile practices, significantly reducing sprint carry-overs and rework by 80%.
- Supported the team in adapting to **remote work**, minimising disruption and maintaining productivity during the onset of the COVID-19 pandemic.
- Developed formats for **remote Scrum ceremonies** and planning sessions, ensuring continued collaboration and progress.
- Contributed to the development of **Statements of Work (SoW)** and **tender inputs** for phased deliveries and additional work within the MoD.
